Dear Sirs:

In February 5, 1958 issue of the Washington Post I saw a reference to Mr. Dulles' speech of February 3 at the Yale science conference.

Would it be possible for you to send me a copy of that speech?

Also, I have seen some of Mr. Dulles' other public addresses reproduced in U. S. News and World Report. Would it be possible for you to send me copies of other speeches that he has given during the period he has been head of the Central Intelligence Agency?

Yours truly,

Luther W. Stringham
